To whom it may concern,

By this letter I would like to express my interest to apply for a Master's Degree Program in Computer Science.

Having looked through an interest in mathematics and computer science when I was a high school student. I have been always curious about the mathematical basis and the background of the technology we use in our daily life. The curiosity led me decide to study in a related field at the university. Having participated to the nationwide university entrance exam (Konkour), I was admitted in Computer science as my undergraduate major of study in Department of Mathematics and Computer Science of Kharazmi University of Tehran (Tarbiat Moallem University) to obtain a B.Sc. degree.

The four-year undergraduate program in Computer science formed the basis of my perseverance towards achieving an in-depth knowledge in this field. As an undergraduate student beside university courses, I tried to gain knowledge about the different aspects of computer science. I attended different seminars and lectures in Computer science at the department of my university and even other universities. I also joined the association of Computer Science of the university and was elected as the manager of the association to participate in more extracurricular activities of my major. This way I had more opportunities to do different activities and try to do new things and develop the level of science among the students of my major. During my undergraduate program I have found Cryptography and Security so interesting, tried to do my best on the courses and even tried to choose all the optional courses related to them. I feel connected to the courses Algebra and Discrete Mathematics which is the basis of Cryptography.

In my opinion Computer Science Master program gives me a great opportunity to indulge my passion in some very meaningful areas of interest and also, I could achieve a good view of what I would like to do in future.

To the best of my knowledge, UPM has a good ranking among all the universities of the world in the subject of Computer Science.

I believe UPM is a perfect next step for me in attaining my ambitions. I would like to express my many thanks for giving me the opportunity to submit this application for the admission. Please do not hesitate to contact me in case of any more detailed information.

I look forward to hearing from you and showing my capabilities in the near future.

Yours faithfully,

Sheida Nazary

(B.Sc. of Computer Science)
